EDUCATION

FACULTY OF INFORMATICS AND INFORMATION

Intelligent Software Systems

Slovak University of Technology / Bratislava, Slovak Republic / September 2024 - Currently

During my engineering studies, I worked on several interesting projects:

- As the lead backend developer, I worked on a data visualization platform for **SEPS a.s.**
- I processed large amounts of data using PySpark and PyLucene
- I created and trained several neural networks, ranging from simple models for predicting home prices to complex networks for facial recognition.

FACULTY OF INFORMATICS AND INFORMATION

Informatics

Slovak University of Technology / Bratislava, Slovak Republic / September 2021 - June 2024

I completed my bachelor's degree **with honors (red diploma)**. During my studies, I focused primarily on:

- I completed a course on the fundamentals of security and security management
- I learned the basics of data science programming as well as the basics of databases and SQL
- As part of my bachelor's thesis, I researched the portability of applications across different Linux distributions

GRAMMAR SCHOOL GRÖSSLINGOVÁ 18

Grammar School

Bratislava, Slovak Republic / September 2017 - June 2021

Study with extended focus on mathematics.
